Gentlemen, time has come for you
Look straight at the light
Your whole life scrolling in a flash
As mirrors of death shine on you...

Gentlemen, light of lights
Will shine on you, will shine on you
Secret way, show me the light
Show me the way to the light of life

Gentle son, your game is over
Was it an easy one, was it a hard fight ?
Ask the mirror of your spirit
It just stares at your lonely face

Gentle son light of lights
Will shine on you, will shine on you
Secret way, show me the light
Show me the way to the light of life
Solo

Gentle daughter, your games are over
Were they hard fights or were they easy games ?
Ask the mirrors of your bodies
They just stare at your lonely faces

Gentle daughter, light of lights
Will shine on you, will shine on you
Secret way, show me the light
Show me the way to the light of life

Gentlemen, time to recognize is now
Be yourself, open your heart
Mother Nature lights the way for you

Gentle ME, time to love is now
Gentle teachers, time to love is now
Gentle religions, time to love is now
Gentle politicians, time to love is now
Gentle soldiers, time to love is now
Gentle all of us, time to love is now
Time to love is now, time to love is now
'Cos shimmering spirits will shine forever

Gentlemen, light of lights
Will shine on you, will shine on you
Secret way, show me the light
Show me the way to the light of life

Oh Gentlemen, light of lights
Will shine on you, will shine on you
Secret way, show me the light
Show me the way, to the light of life
